GASTROENTEROLOGY
CLINICALLY ACTIONABLE RESULTS USING THE RIGHT TESTS, NOT THE MOST TESTS
TESTING COMMITTED TO PROVIDING ANSWERS, NOT JUST RESULTS.

At Mayo Clinic, we know the importance of laboratory testing in a patient’s episode of care. Our unique combination of specialized laboratories and gastroenterology patient-care clinics enables our clients to:

- **Significantly reduce testing costs** with cascading algorithmic approaches.
- **Access comprehensive testing** for celiac, inflammatory bowel disease (IBD), GI infections, GI cancers, and numerous other GI disorders from a single source.
- **Evaluate and treat patients** using the state-of-the-art diagnostic approaches.
- **Receive rapid turnaround times** on high-quality testing for their patients.

24/7 LAB SUPPORT AND BILLING SOLUTIONS

- Mayo Laboratory Inquiry answers all calls personally, 24 hours a day, every day. We resolve more than 99% of inquiries with a single phone call.
- Dedicated support teams located in your region offer support on any laboratory matter.
- Our service and logistics experts guide you through reimbursement or other billing-related questions, including third-party billing and prior authorization.
- Testing committed to providing answers, not just results.

BY THE NUMBERS

- **140** Digestive Disease Specialists on Staff—One of the largest such groups in the world
- **107** Gastroenterology-related clinical trials currently open for enrollment
- **9** Specialty groups within the Department of Gastroenterology and Hepatology at Mayo Clinic
- **386** Research articles published in 2014
- **330+** Tests in our Gastroenterology Test Catalog
CASCADING APPROACHES FOR DEFINITIVE DIAGNOSIS OF CELIAC DISEASE

Working closely with our clinical and research GI colleagues, we have established several cascading algorithms to aid in the definitive diagnosis of celiac disease. These algorithms, each with a specific utility, automatically reflex to perform necessary tests with a single order.

Available Celiac Cascades:
- **Celiac Disease Serology Cascade** (Mayo Test ID: CDSP)
- **Celiac Disease Comprehensive Cascade** (Mayo Test ID: CDCOM)
- **Celiac Disease Gluten-Free Cascade** (Mayo Test ID: CDGF)

RAPID IDENTIFICATION OF THE CAUSATIVE AGENTS OF GI INFECTIONS

Mayo Clinic’s clinical microbiology laboratories span all areas of conventional and molecular microbiology and offer more than 200 tests designed for rapid identification of the causative agents of infectious diseases.

Our laboratories perform more than 2.8 million tests annually and have developed and implemented culture techniques, immunoassays, and nucleic acid and proteomic methods for rapid detection and identification of microbial pathogens.
COLLEGIAL ACCESS TO MAYO CLINIC CLINICIANS, LABORATORIANS, AND GENETIC COUNSELORS

When you partner with Mayo Medical Laboratories, you extend your network to include some of the world’s leading gastroenterology experts. Mayo Clinic clinicians, laboratorians, and genetic counselors are available to discuss testing options, interpret results, or help with case review and coordination.
